## TECH STACK

**Languages & Frameworks:** JavaScript (ES6+, JSON, Node.js, Express) • HTML5 • CSS3 (Tailwind CSS) • Shopify Liquid • HubL

**Tools & Technologies:** AWS • MongoDB • Puppeteer • Figma • Photoshop

## EXPERIENCE

### Full-Stack Developer | *matamos.co* | 2024 - Present

- Designed and developed a high-performance portfolio website showcasing personal & client work.
- Built and deployed scalable backend systems using Node.js and Express.
- Integrated custom API services and database solutions to support various applications.

### Web Developer | *drinks.com* | 2021 - 2024

- Developed and customized Shopify themes using HTML, CSS, Javascript, and Shopify Liquid.
- Integrated third-party services such as ReCharge, Rebuy, Klaviyo, Yotpo, Tapcart, and Okendo.
- Conducted UI/UX/ADA testing using tools like Lambda, PopeTech, and Lighthouse, ensuring accessibility and usability standards were always met.

## PROJECT HIGHLIGHTS

- **CHROMESTARS** – Custom-built race stat tracking app with real-time leaderboards and fully customizable user profiles, built with **Node.js**, **Express**, and **MongoDB**.
- **Trench** – Built a scalable scraping solution for real-time data gathering on the Bandcamp music platform, identifying the most frequently recurring tracks in user collections.
- **Worthwhile** – Designed and developed a user-friendly, interactive website for a community-driven meme coin project, emphasizing luxury, humor, and value through intuitive design and engaging user experience.

## EDUCATION

San Diego State University — *Bachelor of Science Degree in Computer Science*  
2018 - 2020

Southwestern College — *Associate in Science Degree in Computer Science*  
2012 - 2018
